

Over the last 65 years, RLG Consulting Engineers has provided professional civil, structural and surveying services to **award winning projects** throughout the U.S.

Where talent welcomes challenge.

Founded in 1953 by Raymond L. Goodson, Jr., RLG Consulting Engineers specializes in civil, structural, surveying and forensic engineering. For more than 65 years, RLG has been recognized as one of the top engineering firms in Texas for their ability to attract and retain a talented, experienced team. Known for thorough and meticulous work, RLG has designed major projects throughout the country. The staff of more than 60, includes professional engineers holding licenses in 46 states, graduate engineers and registered professional land surveyors.

A commitment to not only understanding but exceeding the needs of clients is at the core of RLG's continued success. The list below is a reflection of that success as seen through the various honors and awards bestowed upon the firm.
